EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Allis on 12/08/2005. In the interview, the examiner suggested the claim language as shown below in order to further define and clarify applicant's claimed invention and not necessarily to further limit the claims.

The application has been amended as follows:

- 1.) In claim 1, line 2 "being constituted by" has been changed to --comprising--,
- 2.) In claim 1, line 3 "on the outside" has been changed to --on an exterior surface of--,
- 3.) In claim 1, line 6 "face" has been changed to --face toward an interior of the vehicle, --,
- 4.) In claim 1, line 8 "means to protect" has been changed to --means for protecting--.

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record alone or in combination teaches or fairly suggest applicant's claimed invention for reasons stated in applicant's amendment and response filed on 11/14/2005.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bangle et al, Cheron et al, Chase et al '140 and '974 disclose lamp housings and exterior surfaces which are constructed to withstand impacts from external objects. Devilliers et al teaches a shock absorbing bumper with a rib projecting outwardly from an interior part. There is no teaching of a translucent skin with rib projecting toward interior of the vehicle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas M. Sember whose telephone number is 571-272-2381. The examiner can normally be reached on M-F 8 A.M- 5.30 p.m. first Fridays off.
